Summary of BC Ministry of Education Annual Class Size and Composition Data 2006–2018

BCTF Research

April 27, 2018

How to Read This Guide

This document contains annual 2006–07 to 2017–18 class size and composition statistics published by the BC Ministry of Education on April 26, 2018¹.

Provincial data is listed on page 2, followed by individual school district information listed in numerical order, beginning with SD5 Southeast Kootenay to SD93 (Conseil Scolaire Francophone).

For each school district, you will find a one-page data table with the following information:

Class Size

- Total number of schools
- Total number of classes
- Classes with an educational assistant
- Total classes with more than 30 students
- Average class sizes for K, 1–3, 4–7 and 8–12

Class Composition

- Total number of classes
- Number of classes with zero student with IEP (0)
- Number of classes with one to three students with IEP (1–3)
- Number of classes with four or more students with IEPs (≥ 4)
- Number of classes with seven or more students with IEPs (≥ 7)

Sample Findings:

Q: How does my school district's secondary class size average compare to the provincial average, and those of other BC districts?

e.g. According to MOE statistics, in 2017–18, the provincial secondary class size average is 22.0—the lowest since 2006. In Surrey, secondary classes average 22.7 students. In Fort Nelson—18.5 students.

Q. Do I see any trends in class sizes between 2006–07 and now?

e.g. The provincial average class size for Kindergarten classes climbed for 10 consecutive years from 17.5 to 19.7, before dropping to 19.1 in 2016–17 and 17.8 in 2017–18 (after restoration of provincial class size limits.)

Q. Have there been any measurable class composition improvements in my district or the province in the past year?

e.g. Overall, the number of classes with more than 4 students with IEPs has dropped from 30.4% to 27.9% since last year. Provincially, the number of classes with more than seven students with IEPs has dropped from 4,186 to 3,474 (5.9% to 4.6%)—still above the 2.2% low in 2006–07.
